American Journal of Physiology: Endocrinology and Metabolism

No. 1. JANUARY 1993

Multiple metabolic effects of CGRP in conscious rats: role of glycogen synthase and phosphorylase
L. Rossetti, S. Farrace, S. B. Choi, A. Giaccari, L. Sloan, S. Frontoni, and M. S. Katz E1

Role of α- and β-adrenoceptors in sympathetically mediated thermogenesis
E. E. Blaak, M. A. van Baak, K. P. G. Kempen, and W. H. M. Saris E11

Studies on mechanisms of hepatic insulin resistance in cafeteria-fed rats
M. B. Davidson and D. Garvey E18

Effects of glucocorticoids on lymphocyte metabolism
M. A. R. Serrano, R. Curi, M. Parry-Billings, J. F. Williams, and E. A. Newsholme E24

Local cerebral glucose utilization in brains of lean and genetically obese (*fa/fa*) rats
P. Doyle, F. Rohner-Jeanrenaud, and B. Jeanrenaud E29

Effects of thyroparathyroidectomy, parathyroid hormone, and PTHrP on kidneys of ovine fetuses
R. J. MacIsaac, R. S. C. Horne, I. W. Caple, T. J. Martin, and E. M. Wintour E37

Stepwise degradation of NT in pars convoluta and recta of rabbit proximal tubules: evidence of axial heterogeneity
T. Bjerke, S. Nielsen, M. I. Sheikh, and E. I. Christensen E45

Growth hormone response to GRF and insulin-induced hypoglycemia in Yorkshire and Meishan pigs
M. Bonneau E54

Carbohydrate metabolism during pregnancy in control subjects and women with gestational diabetes
P. M. Catalano, E. D. Tyzbir, R. R. Wolfe, J. Calles, N. M. Roman, S. B. Amini, and E. A. H. Sims E60

Control of electrogenic Na^+ absorption in rat late distal colon by nanomolar aldosterone added in vitro
M. Fromm, J. D. Schulzke, and U. Hegel E68

Platelet-activating factor stimulates resorption by rabbit osteoclasts in vitro
Z. G. Zheng, D. A. Wood, S. M. Sims, and S. J. Dixon E74

Age-related impairment of K^+- and ACTH-stimulated aldosterone secretion by rat adrenal capsules
K. J. Radke E82

Thyroxine and triiodothyronine distribution and metabolism in thyroxine-replaced athyreotic dogs and normal humans
E. M. Kaptein, G. E. Moore, D. C. Ferguson, and M. Hoenig E90

Regulation of eukaryotic initiation factor-2B activity in muscle of diabetic rats
A. M. Karinch, S. R. Kimball, T. C. Vary, and L. S. Jefferson E101

Splanchnic bed utilization of leucine and phenylalanine in humans
D. E. Matthews, M. A. Marano, and R. G. Campbell E109

Effects of chronic elevation in plasma cortisol on hepatic carbohydrate metabolism
R. E. Goldstein, D. H. Wasserman, O. P. McGuinness, D. B. Lacy, A. D. Cherrington, and N. N. Abumrad E119

SPECIAL COMMUNICATIONS

Estimation of protein fractional synthetic rate from tracer data
G. Toffolo, D. M. Foster, and C. Cobelli E128

Measurement of endogenous synthesis of plasma cholesterol in rats and humans using MIDA
R. A. Neese, D. Faix, C. Kletke, K. Wu, A. C. Wang, C. H. L. Shackleton, and M. K. Hellerstein E136

No. 2. FEBRUARY 1993

EDITORIAL REVIEW

Glucose counterregulation: prevention and correction of hypoglycemia in humans
P. E. Cryer E149

Lactate transport studied in sarcolemmal giant vesicles from rats: effect of training
H. Pilegaard, C. Juel, and F. Wibrand E156

Nerve function in experimental diabetes in rats: effects of electrical stimulation
N. E. Cameron, M. A. Cotter, S. Robertson, and E. K. Maxfield E161

Muscle glucose uptake during and after exercise is normal in insulin-resistant rats
M. Kusunoki, L. H. Storlien, J. MacDessi, N. D. Oakes, C. Kennedy, D. J. Chisholm, and E. W. Kraegen E167

Twin study of the 24-h cortisol profile: evidence for genetic control of the human circadian clock
P. Linkowski, A. Van Onderbergen, M. Kerkhofs, D. Bosson, J. Mendlewicz, and E. Van Cauter E173

Effects of exercise and immobilization on bone formation and resorption in young rats
J. K. Yeh, C. C. Liu, and J. F. Aloia E182

Increased proliferation of osteoblast precursor cell in estrogen-deficient rat
D. Modrowski, L. Miravet, M. Feuga, and P. J. Marie E190

Insulin resistance in polycystic ovary syndrome: decreased expression of GLUT-4 glucose transporters in adipocytes
D. Rosenbaum, R. S. Haber, and A. Dunaif E197

Endothelium-dependent vasorelaxation evoked by desmopressin and involvement of nitric oxide in rat aorta
K. Yamada, M. Nakayama, H. Nakano, N. Mimura, and S. Yoshida E203

Activation of central α_1-adrenoceptors in humans stimulates secretion of prolactin and TSH, as well as ACTH
S. Al-Damluji and D. Francis E208

Effect of prolonged exercise on muscle citrate concentration before and after endurance training in men
A. R. Coggan, R. J. Spina, W. M. Kohrt, and J. O. Holloszy E215

Ovine fetal placental lactate exchange and decarboxylation at midgestation
B. S. Carter, R. R. Moores, Jr., F. C. Battaglia, and G. Meschia E221

Similar effects of NPY on energy metabolism and on plasma insulin in adrenalectomized *ob/ob* and lean mice
H. C. Walker and D. R. Romsos E226

Analytical problems in detecting rapid insulin secretory pulses in normal humans
N. M. O'Meara, J. Sturis, J. D. Blackman, D. C. Roland, E. Van Cauter, and K. S. Polonsky E231

Disposal and distribution of rT_3 in humans: a new double-tracer kinetic study
A. Pilo, G. Iervasi, F. Vitek, S. Turchi, and R. Bianchi E239

Exogenous substrate uptake by fetal lambs during reduced glucose delivery
J. R. Milley E250

Aminoacylation of initiator methionyl-$tRNA_i$ under conditions inhibitory to initiation of protein synthesis
K. M. Ojamaa, S. R. Kimball, and L. S. Jefferson E257

Regional adrenal blood flow responses to adrenocorticotropic hormone in fetal sheep
A. M. Carter, B. S. Richardson, J. Homan, M. Towstoless, and J. R. G. Challis E264

Glucose transport and transporters in muscle giant vesicles: differential effects of insulin and contractions
T. Ploug, J. Wojtaszewski, S. Kristiansen, P. Hespel, H. Galbo, and E. A. Richter E270

Intense exercise and food restriction cause similar hypothalamic neuropeptide Y increases in rats
D. E. Lewis, L. Shellard, D. G. Koeslag, D. E. Boer, H. D. McCarthy, P. E. McKibbin, J. C. Russell, and G. Williams E279

Bromocriptine redirects metabolism and prevents seasonal onset of obese hyperinsulinemic state in Syrian hamsters
A. H. Cincotta, T. A. MacEachern, and A. H. Meier E285

Characterization of a common VIP-PACAP receptor in human small intestinal epithelium
R. Salomon, A. Couvineau, C. Rouyer-Fessard, T. Voisin, D. Lavallée, A. Blais, D. Darmoul, and M. Laburthe E294

Expression of GLUT-4 glucose transporter in unweighted soleus muscle of normal and STZ-induced diabetic rats
H. Ishihara, T. Asano, H. Katagiri, J.-L. Lin, K. Tsukuda, K. Inukai, Y. Yazaki, and Y. Oka E301

RAPID COMMUNICATION

Metabolic and hemodynamic effects of insulin on human hearts
E. Ferrannini, D. Santoro, R. Bonadonna, A. Natali, O. Parodi, and P. G. Camici E308

ANNOUNCEMENTS E316

No. 3. MARCH 1993

EDITORIAL

Minireviews concept
A. D. Cherrington E317

Glucose transporters and glucose transport in skeletal muscles of 1- to 25-mo-old rats
E. A. Gulve, E. J. Henriksen, K. J. Rodnick, J. H. Youn, and J. O. Holloszy E319

Glucose uptake and glycogen synthesis in normal and chronically active muscles
R. J. Talmadge and H. Silverman E328

Effects of subbasal insulin infusion on resting and exercise-induced glucose turnover in depancreatized dogs
Z. Q. Shi, A. Giacca, K. Yamatani, S. J. Fisher, H. L. A. Lickley, and M. Vranic E334

Female sex hormones, perinatal, and peripubertal androgenization on hepatocyte insulin dynamics in rats
G. R. Krakower, D. A. Meier, and A. H. Kissebah E342

Calcium current regulation of depolarization-evoked calcium transients in β-cells (HIT-T15)
I. D. Dukes and L. Cleemann E348

Major role of dihydropyridine-sensitive Ca^{2+} channels in Ca^{2+}-induced calcitonin secretion
H. Scherübl, T. Kleppisch, A. Zink, F. Raue, D. Krautwurst, and J. Hescheler E354

Effects of cell density on in vitro glucose metabolism by isolated adipocytes
M. DiGirolamo, S. V. Thacker, and S. K. Fried E361

Characterization and ontogeny of endothelin receptors in human placenta
S. J. Kilpatrick, J. M. Roberts, D. L. Lykins, and R. N. Taylor E367

Exercise training and clenbuterol reduce insulin resistance of obese Zucker rats
C. E. Torgan, J. T. Brozinick, Jr., E. A. Banks, M. Y. Cortez, R. E. Wilcox, and J. L. Ivy E373

Hepatic glucose production and insulin sensitivity and responsiveness in iron-deficient anemic rats
M. J. Borel, J. L. Beard, and P. A. Farrell E380

Local bone injections of LPS and M-CSF increase bone resorption by different pathways in vivo in rats
P. Orcel, M. Feuga, J. Bielakoff, and M. C. de Vernejoul E391

Thyroidal vascular responsiveness to parasympathetic stimulation is increased in hyperthyroidism
M. Dey, M. Michalkiewicz, L. J. Huffman, and G. A. Hedge E398

Coexistence of β_1-, β_2-, and β_3-adrenoceptors in dog fat cells and their differential activation by catecholamines
J. Galitzky, M. Reverte, M. Portillo, C. Carpéné, M. Lafontan, and M. Berlan E403

Ouabain is secreted by the adrenal gland in awake dogs
B. R. Boulanger, M. P. Lilly, J. M. Hamlyn, J. Laredo, D. Shurtleff, and D. S. Gann E413

Acute effects of ethanol on hepatic endocytosis and processing of insulin in perfused rat liver
J. Fawcett, B. Hammond, and G. D. Smith E420

Respiratory, ionic, and functional effects of succinate esters in pancreatic islets
W. J. Malaisse, J. Rasschaert, M. L. Villanueva-Penacarrillo, and I. Valverde E428

Metabolic effects and fate of succinate esters in pancreatic islets
W. J. Malaisse and A. Sener E434

Pancreatic β-cell function and glucose metabolism in human segmental pancreas and kidney transplantation
E. Christiansen, H. B. Andersen, K. Rasmussen, N. J. Christensen, K. Olgaard, P. Kirkegaard, B. Tronier, A. Vølund, P. Damsbo, F. Burcharth, and S. Madsbad E441

Determinants of decline in resting metabolic rate in aging females
E. T. Poehlman, M. I. Goran, A. W. Gardner, P. A. Ades, P. J. Arciero, S. M. Katzman-Rooks, S. M. Montgomery, M. J. Toth, and P. T. Sutherland E450

Two-compartment model of acute stimulation of aldosterone secretion in vivo by angiotensin II
R. L. Gogerly, J. P. Coghlan, P. Morgenroth, and J. G. McDougall E456

LPS inhibits PI-phospholipase C but not PC-phospholipase D or phosphorylase activation by vasopressin and norepinephrine
R. A. Pittner and J. A. Spitzer E465

Parathyroid hormone-related protein increases cAMP production in mammary epithelial cells
S. Ferrari, R. Rizzoli, C. Chaponnier, G. Gabbiani, and J.-P. Bonjour E471

SPECIAL COMMUNICATION

Remote and chronic access to the third cerebral ventricle of the unrestrained prepubertal rhesus monkey
V. L. Gay, N. Mikuma, and T. M. Plant E476

No. 4. APRIL 1993

INVITED REVIEW

Natriuretic peptide C-receptor: more than a clearance receptor
E. R. Levin E483

Estrogen-induced left ventricular chamber enlargement in ewes
G. D. Giraud, M. J. Morton, L. E. Davis, M. S. Paul, and K. L. Thornburg E490

Absence of glucocorticoid negative feedback to moderate hemorrhage in conscious rats
K. V. Thrivikraman and P. M. Plotsky E497

Whole body and splanchnic oxygen consumption and blood flow after oral ingestion of fructose or glucose

CORRIGENDA

Volume 259, October 1990
Volume 22, October 1990

Pages E555–E560: A. Holmäng, J. Svedberg, E. Jennische, and P. Björntorp. "Effects of testosterone on muscle insulin sensitivity and morphology in female rats." Page E559, Fig. 2, magnification data were reported incorrectly. The legend should read: Magnification ×200 (*A*) and ×400 (*B*).

Volume 261, August 1991
Volume 24, August 1991

Pages E252–E256: B. A. Clark, D. Elahi, L. Fish, M. McAloon-Dyke, K. Davis, K. L. Minaker, and F. H. Epstein. "Atrial natriuretic peptide suppresses osmoregulated vasopressin release in young and elderly humans." A systematic error was made in converting atrial natriuretic peptide values from pg/ml to pmol/l. The levels published should be divided by 9.5 to obtain correct absolute values. The authors regret this error.
